DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

2. Claims 1, 2 and 4 are rejected under 35 U.S.C. 102(a) as being anticipated by Chen (US 2004/0035713).

Chen discloses a sticker comprising a substrate, a first isolating layer on the substrate, a resin layer on the first isolating layer, a metal powder layer on the resin layer, a first protecting resin layer on the metal powder layer, a second protecting layer on the first protecting layer, an adhesive layer on the second protecting layer, and a second isolating layer on the adhesive layer [0026-0034]. The substrate is equivalent to the claimed base material, and is made of paper [0035]. The first isolating layer is equivalent to the claimed wax layer, and is made of wax [0035]. The metal layer is equivalent to the claimed metal film. The first protecting layer is equivalent to the claimed protection printing ink layer, and is mixed with colors [0037]. The second protecting layer is equivalent to the claimed picture printing ink layer, and is mixed with colors [0037].

Allowable Subject Matter

3. Claims 3 and 5-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
